

Gun Rights Nearly Failed in 2020

Limit Local Government Authority to Regulate Firearms

“Yes” vote supported this measure to remove local governments’ authority to regulate the carrying of permit concealed weapons. Missoula County had attempted to enact more stringent concealed weapon laws than required by the state.

“No” vote would allow local governments to continue to regulate permitted concealed weapons.

Does this narrow margin on gun rights make sense in the state with the highest per capita gun ownership in the country? It won’t take much with election machines and inflated voter rolls to defeat gun rights in the next election.
